

## MEDIA PLANNER PRINT

### EACH ISSUE FOCUSES ON:

#### Engineering & Technical Projects

From design and Product Life cycle to Collaborative Engineering and management of technical projects

#### Energy & Environmental Projects

Energy saving technologies and sustainable energy production in addition to environment technical projects and technologies

#### Manufacturing & Process Technology

Production & process technology and management for all production types (discrete, batch and continuous processes)

#### Motion Control & Machine building

Installation & machine building including Motion Control & Drive Technology (Electric, Mechanical, Pneumatic, Hydraulic)

### EDITIONS & THEMES

### FAIRS

### SPECIALS

#### JANUARY 2010 - 'InfoTechnique Trendwatch'

Special issue with trends in engineering, production, maintenance, energy & environment in collaboration with Engineeringnet.be, Maintenance Magazine and Pumps & Process Mag. (circ. 11,000)

Deadline  
04/01/2010  
Issue date:  
25/01/2010

- M+R Gent  
4 March 2010  
Flanders Expo Gent

#### MARCH MOTION CONTROL SYSTEMS

- Factory: HMI interfaces (SCADA, operator panels, ...)
- Process: wired & wireless instrumentation
- Design: CAD/CAM, design & 3D simulation software
- Logistics: Auto-ID & RFID-systems

Deadline  
24/02/2010  
Issue date:  
17/03/2010

- easyFairs Industrie & Milieu - 24-25 March 2010 - Antwerp Expo
- easyFairs Maintenance 2010: see Maintenance Mag.

Theme supplement:  
**Visitors Guide Trade Fair 'Industrie & Milieu 2010' in Antwerp**

#### MAY INDUSTRIAL NETWORKS & FIELDBUSSES

- Factory: measuring & controlling
- Process: technical installations & equipment
- Design: Product Lifecycle Management & Data Management
- MES systems: production information systems

Deadline  
14/04/2010  
Issue date:  
05/05/2010

Theme supplement:  
**Energy & Engineering Supplement about energy and environmental technologies**

#### JUNE ENGINEERING COMPANIES & SYSTEM INTEGRATORS

- Factory: fieldbuses & industrial networks
- Process: DCS & controller based systems
- Engineering: industrial engineering & system integration
- Logistics: material handling & inbound transportation

Deadline  
24/05/2010  
Issue date:  
14/06/2010

Theme supplement:  
**Energy & Engineering Supplement about energy and environmental technologies**

#### SEPTEMBER SPECIAL TRADE FAIR EASYFAIRS FACTORY & PROCESS AUTOMATION (EX-MOCON)

- Mechanical engineering & machinebouw
- Factory: PLCs, PC automation & Ethernet
- Process: measuring temperature, flow, pH,...
- Design: software for electrical design
- Engineering: mechanical engineering & industrial automation

Deadline  
31/08/2010  
Issue date:  
21/09/2010

- M+R 16/9/2010 Brussels Expo
- Factory & Process Automation (ex-Mocon): 22&23 september 2010 Brussels Expo
- Fair Pumps & Valves 2010 - see Pumps & Process Magazine

Theme supplement:  
**Energy & Engineering Supplement about energy and environmental technologies**

#### DECEMBER (WASTE) WATER TREATMENT

- Factory: guidance & positioning systems & components
- Process: hybrid batch automation (food & pharma,...)
- Design: designing and testing control loops
- Logistics: system automation & integration

Deadline  
19/11/2010  
Issue date:  
10/12/2010
