SPECIALS 2011

1x Infotechnique Trendwatch

Once a year, we publish a separate publication called: 'InfoTechnique Trendwatch'.

As the title suggests, the special offers an overview of the most interesting technical/technological trends in the fields of engineering, production, maintenance & fluid technology.

This special edition is realized in collaboration with the editorial teams of Engineeringnet.be, Engineeringnet.nl, Maintenance Magazine, Energy & Engineering and Pumps & Process Magazine.
